Our Learning

This week, the children have been continuing to think about subtraction. The children are now becoming more confident at subtracting two digit numbers using a number line. We have also been applying our knowledge of subtraction by doing word problems. This was a good opportunity to think about the vocabulary that we need to be able to recognise to help us know when to use subtraction.

In English, the children were exploring the main character, Funni, in the book that we are reading, *The Secret Sky Garden*. The children were very good at thinking of adjectives to describe Funni and then using these words in their character descriptions.

Next week, the children are going to be thinking about setting descriptions and which words they could choose to describe *The Secret Sky Garden*. In Maths, the children will be completing a mixture of addition and subtraction calculations. Then in Geography, they are going to be busy learning about the directions: North, East, South and West.
