- **World Book Day – 8th March.**
- **W/C 11th March– STEM Week,** celebrating Science, Technology, Engineering and Maths.
- **March 15th– Red Nose Day**

Lunchtime concerts

Well done to all the Year 3 performers who took part in the music lunchtime concerts this week. For many children, this was the first time they had performed to an audience since starting music lessons in September. Thank you to all their friends who came to support. A huge thank you to all the parents that could attend too–it was wonderful to see so many of you at this school event.

Our Learning

English

This week the children have been inspired by our new text, “How the Stars Came to Be” by Poonam Mistry. They have enjoyed planning their own poems about the moon using exciting metaphors. All the children have begun to use metaphors to create fantastic imagery. Well done Year 3!

Maths

This week our marvellous mathematicians have learned that perimeter is the distance around the outside of a closed 2-D shape.. They have used their knowledge of different shapes to help them calculate the perimeter of different 2-D shapes. Next week the children will begin a unit about fractions.

Geography

This week the children have learned about the Journey of a river from its source to the sea and they enjoyed using a variety of photographs to explore the key features. They have also drawn an annotated diagram to show the Water Cycle and we were very impressed with their prior knowledge.

PSHRE

In PSHRE the children sorted a variety of food into healthy or less healthy choices and they have talked about how food packaging can help us choose healthier options. They also investigated the amount of sugar in some popular food or drinks

Star of the week

3Rashford: Zain

3Moore: Dimercia

3Wicks: Alyan
