- **Wednesday 22nd May**–Priory Soiree from 6:00pm-8:30pm
- **Half term week Monday 27th May– Friday 31st May**
- **Monday 3rd June and Tuesday 4th June**–INSET
- **3Moore** - Trip to the Ure Museum on 25th June
- **3Rashford**–Trip to the Ure Museum on 3rd July
- **3Wicks**–Trip to the Ure Museum on 9th July

English

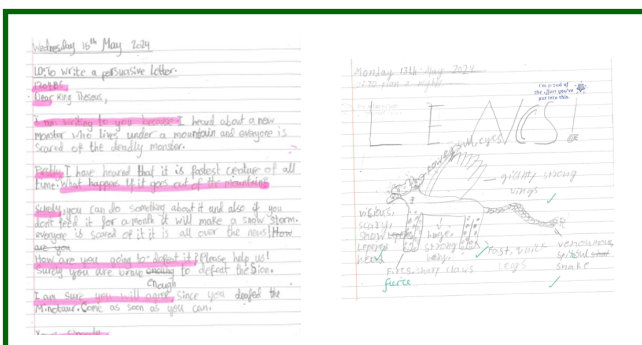

This week the children have designed their own mythical creature and they have written a fascinating fact file describing its appearance and special powers. Language features included an introduction, sub-headings and information organised into paragraphs. The children have also written a letter to King Theseus and they have planned a sequel to the original myth which they will write and edit next week.

Maths

Our magnificent mathematicians have started a block of lessons on time and they have had the opportunity to work with an individual clock to practise their skills. We have focused on quarter past and quarter to, Roman numerals, to 12 and telling the time to five minutes. Next week we will focus on telling the time to the minute as well as reading time on a digital clock. If you have an analogue clock at home, it would be very helpful if you could ask your child to tell you what time it shows.

Science

This week we began our science unit on plants, learning to identify and describe the functions of a plant. This includes the roots, stem/trunk, leaves and petals/flowers. In the next lesson, the children will focus on the requirements of plants–what conditions help them grow and which conditions are detrimental to plants growing and thriving. If you have any plants at home, please do ask your children these questions and see what answers you receive!

Star of the week

3Rashford : Zia

3Moore: Darlene

3Wicks: Khadija

Word of the Week: function
