Anti-bullying Week: 13th Nov
Priory Friends Coffee Morning: 15th Nov
Parent Forum- 22nd Nov
Kip on a Ship: 23rd November

We made factor clouds and multiple chains in maths this week! We also thoroughly enjoyed conducting experiments in science.

Our Learning

This week, we enjoyed beginning our new science unit on Properties of Materials and have already conducted several experiments. Next week, we will continue being scientists and also become geographers. Our next geography unit looks at the migration of refugees and also mountains, earthquakes and volcanoes.

In maths, we started our Multiplication and Division unit focusing on multiples, common multiples, factors, common factors, and prime numbers.

In English, we continued to read the text 'Goodnight Mr Tom', exploring the characters and their emotions as the story unfolds.

In PSHRE, we looked at cultural differences within the classroom and how we should be celebrating these differences rather than allowing them to cause conflict.

Next week, we will continue our Science unit and begin our geography for this term. We are also exploring vector drawings in ICT this half term.

In maths, we will continue to apply multiplication strategies to help support us within common factors, prime numbers and square numbers.

In English, we will write a newspaper article about how the evacuees settled into Little Weirwold and we will write a book and movie review about Goodnight Mister Tom.

Star of the week

5Dawe: **Elif** 5Maple: **Sarim** 5Ofili: **Ellis**

Word of the Week: **conscious**

Remember to read 3 times a week and practise your timetables on Rockstar Maths and Doodle Maths.
